

Pre-School Training

ADHD: Principal Educational Strategies in Early Years

- Understanding early brain development and the early alerts for Neurodevelopmental Conditions including ADHD, Autism and Sensory integration difference.
- Strategies to support emotional self regulation, sensory sensitivities and early planning, organising and problem solving.
- Delegates will be introduced to strategies that can be implemented within their setting and that can be shared with parents/carers at home.

This event will be delivered by Emma Weaver who is the Trainer and Deputy CEO at the ADHD Foundation UK, the largest patient led service of its kind in the UK.
